

TELLS CITIZENS' COUNCIL THAT BUCKS TOWNSHIPS FACE PROBLEMS DUE TO POPULATION GROWTHS LAST FEW YEARS

Only Seven Townships and 14 Boroughs Have Zoning—Commissioner Simon K. Moyer Calls Attention To Lack of Zoning in Falls, Bristol and Bensalem Townships, With Industry Rushing Into the Area.

DOYLESTOWN, May 14 — At a meeting of the Citizens' Council for Bucks County, Simon K. Moyer, president of the Bucks County Commissioners, Friday evening, said that the townships in Bucks County will have many more problems than the boroughs because of the great increase in population. Only seven townships in the county have zoning laws.

Fourteen of the county's 23 boroughs have zoning.

Speaking to about 25 men and women, County Commissioner Moyer, who gave the history of the organization of the Bucks County Planning Commission, pointed out that the 21 townships in the county in 1940 had a population of 60,840 and in 1950, the population was 91,469.

"That's a gain of 12 per cent and if you don't think the townships are facing problems, particularly those where the Fairless Works of United States Steel is located, you have another guess coming."

"Neither Falls, Bristol or Bensalem townships have zoning and they are directly adjacent to, or have the Fairless Works, on their doorsteps."

"The 23 boroughs in 1940 had a population of 46,875 and in 1950 had a population of 52,766."

"Bucks county is the eighth county in Pennsylvania to have a planning commission. We are making efforts now to procure a director and set up a staff."

"The four counties in this part of Pennsylvania—Bucks, Chester, Montgomery and Delaware—comprised six per cent of the population increase in the entire State of Pennsylvania."

County Commissioner Joseph W. Hallowell, Ivyland, R. D., also spoke briefly.

A Langhorne, R. D., man urged that the County Planning Commission do a good land-use plan of lower Bucks county immediately so that heavy industry and secondary industries will not have any

THE WAR

TOKYO, May 14 — (INS)—Droves of United Nations planes unleashed a big air assault over the whole Korean front and the enemy's rear today in an effort to stave off an imminently expected 625,000-man Red offensive. The airman struck as Communist troops stopped an Allied drive up the east coast and massed elsewhere north of a no man's land belt for the anticipated smash at a floodlight-equipped UN line across the entire peninsula. A non-stop Allied air campaign was renewed at dawn Monday with intensified fury, mowing down additional hundreds of Chinese and North Korean soldiers, wrecking rail-highway arteries and blowing up ammunition and fuel dumps. A Monday night U. S. Fifth Air Force summary said UN tactical planes concentrated primarily on the enemy's chief buildup in mid-Korea between Chunchon and Huichon.

Dozing Driver Cause of One-Car Accident

PENNDLE, May 14—Damage to the extent of \$300 was the result of a one-car accident Sunday morning at 2:45 on U. S. Route No. 1, here.

According to state police at Langhorne barracks, a passenger vehicle operated by Frank G. Wolf, 28, Vallejo, Cal., travelling west, is said to have dozed at the wheel, causing the vehicle to strike a utility pole on the south side of the highway.

The machine was removed to a local garage. Investigation was made by Officers Miles and Friedrich.

SAYS COUNTY LAGS IN RECREATION SPOTS

State Planning Consultant Tells of Results of Survey

ADVISES MORE SOON

By International News Service
HARRISBURG, May 14 — (INS)—State recreation planning consultant Kenneth W. Abell, said today Bucks county communities are "lagging" in establishment of public recreational facilities.

"Being located where they are," he said, "with the Morrisville steel plant under construction and expanded industrial activity assured, there is apt to be difficulty later on in acquiring land."

Ten of the county's 53 communities offer locally-sponsored recreation programs, he said.

These represent less than 40 per cent of the county's 144,000 population, he added.

Doylestown and Perkasie lead the localities with programs. Each has a municipal full time director to guide activities.

Part time programs are underway in Bristol, Falls Township, Morrisville, New Britain Township.

TO SPEAK TO REPUBLICANS

The Hon. Fred P. Hare, Jr., of Somerset, member of the State Senate and of the executive board of the General State Authority, will be the principal speaker at a meeting of the Loyal Republican Club at Buckingham on Friday, May 25th. The political rally will be open to the public. Refreshments and entertainment will follow.

WORLD NEWS IN BRIEF

Defense Secretary Marshall is expected to end his testimony on the MacArthur case today. There was no evidence that testimony so far taken by two Senate committees meeting jointly had changed any opinions. Lieut. Gen. Eichelberger, who served under General MacArthur, warned against disturbing the "very delicate balance between peace and war in the deliberations of the Kremlin" that might change the Korean picture.

The Government's troop information and education program, according to a survey, is so inadequate that members of the armed forces have little understanding of the nation's aims or why there is fighting in Korea.

"In the next twelve months," until production catches up with remaining demand, "we'll be walking a tight-rope" and make our nearest approach to austerity. Mobilization Director Wilson said. Officials working to keep a check on inflation were concerned over growing labor pressure for a new round of wage increases. One source estimated such increases might reach a total of \$21,000,000,000 by the end of a year.

Congress has passed only twenty-eight laws, none of them a major Administration measure. This is fewer than passed by the Eightieth

Congress, which President Truman called a "do-nothing Congress."

General De Galle was said to be willing to reach a full agreement with Germany, provided a German army in the North Atlantic forces was limited in size and a Frenchman led Central European forces.

Conditions in Germany today are similar to those that gave rise to nazism and the Socialist Reich party stands for "the best of national socialism," a leader of that resurgent movement declared.

Premier Mossadegh of Iran, saying the Anglo-Iranian Oil Co. had threatened to kill him, vowed to stay in the Parliament building until oil nationalization was completed.

A broad plan for developing the world's backward areas drafted by experts for the United Nations proposes that the World Bank triple loans for Point Four purposes, that an international development authority be formed and creation of a world finance corporation be studied.

SIX SCANDALOUS YEARS

Look Magazine (May 22 issue) has done the American people an unparalleled service in rounding up in a single easy-to-read article the history of the scandals, favoritism and frauds in the Truman Administration, which has just turned its sixth birthday.

The survey, touching only the high-spots, requires seven full pages of space. It shows the Truman regime to be probably the most shockingly corrupt administration that ever held office in Washington. The rotten morals and shameful corruption of the Pendergast machine, in Missouri, which put President Truman in national politics by voting 50,000 tombstone names for him, have been transplanted bodily to our national capital.

And the situation, as is well demonstrated by the Kefauver crime investigation, is steadily getting worse—not better.

While tired and discouraged "statesmen" gamble the nation's destiny away in the field of world politics, the cronies of the President are getting their while the getting is good.

The Look survey is by no means complete. To cover all the ramified scandals which have led in the direction of the White House would take something the size of a telephone book. But it is enough for the purpose. It is sufficient to let the American people know whether this is what they want in the way of a national government—whether they do or do not want a change at the earliest possible moment.

Here is a chronology of the scandals covered by Look:

FIRST YEAR — 1945
April—Pauley deal—campaign contributions for oil concessions—starts unfolding.

May—Truman begins freeing former associates in Pendergast machine, jailed for stealing elections.

June—The "perfume" scandals begin—Vaughan, chief

Interesting Homes in Newtown to Have "Open House" May 19

PUBLIC TO VISIT THEM IN MAY PROCESSION

NEWTOWN, May 14 — Among the interesting homes to be visited on "open house" day in historic Newtown, May 19th from 10:30 - 4:30 p. m. is that of Mr. and Mrs. Warren Custer, Brookside Farm, where Edward Hicks, noted primitive painter, lived as a bond boy. His painting of this residence from memory, hangs in the Museum of Modern Art in New York, N. Y.

The "Bird in Hand," home of Mr. and Mrs. Edward R. Barnsley is the oldest house in Newtown, and is said to be the oldest frame house in Pennsylvania, having been built about 1690. It was the site of the first Newtown post office, after being used as a tavern. During the Revolution it was the site of the quartermaster depot for the Continental Army.

"Headquarters Farm," home of Dr. and Mrs. Hayward Holbert was built in 1763, and was General George Washington's headquarters in 1776 when the Battle of Trenton was planned.

Doolington Manor, built in 1738, home of Mr. and Mrs. Russell Wright is another show place. The present owners purchased it from "Tim" McCoy, famous western film star.

The Old Presbyterian Church of Revolutionary fame will be on the itinerary; as will "Hidden Valley Farms," the home of Mr. and Mrs. Lawrence J. Pearson; "Hickory Hollow," home of Mr. and Mrs. Carleton Smith which has an old basement kitchen; and the home of Mr. and Mrs. Frederick Trabold, which has a unique boxwood garden and very old boxwood tree. The home of Mrs. Dorothea Collings has a chapel on it reconstructed from the old carriage house 40 years ago, and "Woodmont" Farm, the home of Mr. and Mrs. Eugene Bachman has the old stone sink in the original kitchen.

PHILCO TO SPEND \$1,500,000 AT EDGELY

Announcement Made With Release of Business Report for Quarter

DETAILS NOT GIVEN

Philco plans to build a \$1,500,000 plant at Edgely on the site which is now being prepared, according to an announcement released in Philadelphia yesterday. The site is at Route 13 and Haines road. Philco for the past several years has occupied what was formerly the Blue Moon hosiery plant at Croydon.

Philco's first quarter sales were the largest for any quarter in its history, totaling \$113,524,000, an increase of 43% over the year ago period. Its earnings before taxes rose 86½% to \$13,896,000. However, its taxes were almost triple those of the first three months of last year, the increase along being 150% of its net income after taxes in the first three months of this year. Had it not been for this tremendous jump in taxes, Philco would have shown a far greater increase in first quarter profits. As it was, net income rose to \$4,354,000, or \$1.21 a common share, from \$4,074,000, or \$1.13 a share, in the first quarter of last year.

William Balderston, president, said that Philco had a pretty uniform increase in all of its departments during the first three months. The largest dollar volume, of course, was in the television line with refrigerators close behind.

Philco has been expanding its facilities and currently is embarked on a program involving expenditures of about \$14,000,000, all for defense work facilities, which will increase its plant space about 25%, adding about 1,300,000 sq. ft. to its present 4,200,000 sq. ft. of plant capacity.

It just started construction on a \$8,000,000 plant for government work opposite its main plant at Toga and C streets, Philadelphia. It expects partial occupancy of this plant by November. It has received a certificate of necessity for a \$4,000,000 plant at Frederick, Md., for electronic tubes, with occupancy early in 1952.

In addition it recently purchased three small plants in Bedford, Ind.

PRIZES IN VARIETY

A lamp, garbage pail, roaster, covered cake dish, large tray, etc., will be awarded as prizes at the card party which American War Mothers will sponsor this evening in Goodwill Hose Co., No. 3, station.

Navy Helicopter Pilot Is Missing in Korea

BRIDGEWATER, May 14 — Mrs. John Daley has been advised that her son, Lt. John W. Thornton, 29, of Philadelphia, a Navy helicopter pilot, is missing in action in Korea as of March 31st.

The telegram, telling of Thornton being among the missing, was sent by officials to Thornton's wife, Virginia, who notified the Lieutenant's mother, here. The officer is believed to be in the hands of a "friendly party," it is added.

Inasmuch as Thornton has not reported to his command, it became necessary to list him as "missing." He was a World War II Navy fighter pilot. Having enlisted in 1942, he served aboard an aircraft carrier in the Pacific. He was granted a discharge in 1945, and was recalled by the Naval Reserve in February of last year.

Entering the Navy in July, 1950, he went to Korea in December. In January he was marooned on an enemy beach for five days after his helicopter crashed. Lt. Thornton has a son, John, Jr., age three years. The Navy officer was employed by Kaiser Metal Products, Inc., before entering University of Pennsylvania for special instruction. He was well-known for his athletic activities and diving at Germantown "Y" and Somerton.

LATEST NEWS BULLETINS

Rollbacks Effective on Beef Prices

Washington — The first rollbacks on retail beef prices which went into effect today are expected to slash five to ten cents a pound from such items as chuck and pot roasts. Government price officials said these and similar "non-volume" items are expected to go down in price, but added there may be increases in choice grades of beef.

Youth Fatally Wounded in Struggle for Gun

Berlin, N. J. — MacClinton Wood, 17, was wounded fatally by a bullet today as he struggled with a New Jersey State Trooper for possession of a gun following an automobile accident in Berlin. Police said the car, operated by Trooper E. E. Bock, crashed into a tree when the youth tried to flee during the ride to police barracks after his arrest on a car looting charge. Bock said the lad attempted to grab his gun which discharged during the scuffle. Wood died shortly after being admitted to Camden Cooper Hospital.

Suggest Embargo on War Goods to Red China

Lake Success — An embargo on all shipment of war goods to Communist China was recommended today to the U. N. assembly's 60-member political committee in a "hard-boiled" U. S. resolution. Clamping a U. N. embargo on Red China would be the second major punitive step against Mao Tse-Tung. The first one was the labeling of Mao as an aggressor. Russia was certain to announce its defiance of the embargo once the assembly has given final approval.

Recommend Funds to Develop Backward Nations

Lake Success — Five United Nations economic experts have unanimously recommended the world organization spend more than 19-billion dollars annually for the rapid economic development of backward nations. The experts said the bulk of the money must come from the wealthier nations of the world—the United States, Canada, Australia and the Western European countries. The remaining five-billion dollars would have to be raised by the undeveloped countries themselves through a rigid program of forced savings, increased taxation and other such austerity measures.

STORM SHAPING UP

There may be some argument over whether a thunderstorm always gives warning of its coming—as self-appointed weather prophets are eager to insist. But most persons recognize the signs when they notice them. The sky darkens, lightning plays along the horizon. The wind dies away. The storm may "go around," but chances are against it.

So no one needs special knowledge to deduce from the dispatches that have been coming out of Washington that an economic storm is shaping up. One dispatch reports that Mobilization Director Wilson has called upon states, cities and counties to get federal government "clearances" before borrowing more than \$1,000,000 for any public purpose. That unprecedented step can only mean he is gravely concerned about the damage the rearmament program can do to the economy.

It is understood, under the U. S. political system, that the federal government ought to stick to its own fiscal knitting and let the states and cities and counties take care of their own finances. Americans do not want Washington to tell them when their town can or cannot have a new park—or when they can or cannot replace the old state capitol or revamp the local sewerage system.

Sometimes they can be persuaded to undertake certain improvements by the device of federal matching funds. But they do not take kindly to being told what to do—or not to do.

So Mobilization Director Wilson braved an entirely natural tendency to react unfavorably, even violently, to his suggestion. But he felt it was necessary to get public works postponed, if possible, during the period when defense orders are putting a severe strain on the nation's manpower and materials. But—hold on to your hats!

SHADOWS BEHIND CURTAIN

It may be a case of wishful thinking to regard these developments as important, but three red states near Tito's Yugoslavia are all having internal troubles. In Czechoslovakia, for instance, some high communist leaders are under arrest for plotting against the state and the government freely admits that it has thrown 200,000 persons out of the party.

There has been a purge in Bulgaria, too. Although the news is censored, it has been learned that many persons were injured by the red terrorists and that peasants are still up in arms over an order directing them to surrender their lands in a farm collectivization program.

The Hungarian rebellion takes the form of a sit-down strike by the farmers against the government's five-year agricultural plan.

The fact that these events have taken place or are taking place so close to Yugoslavia may be proof that Tito's neighbors are beginning to share his views about the Soviet Union and see some virtue in a variety of independence of the Kremlin.

ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette issue dated at Bristol, Dec. 18, 1902. The Gazette, a weekly newspaper published in Bristol, was discontinued following its merger with the Courier.

TULLYTOWN—The directors of the Tullytown Wharf Co. hope to place their property in first class condition next spring. One of the directors says that in a few years much of the farming land hereabout will be used for raising truck, which will make more business for boats, for it is so convenient to ship truck that way. The Springfield has been the only boat to stop here this year, but next summer another boat may be scheduled to land for there will be plenty of freight at the wharf for shipment.

Dr. William Martin witnessed the operations of the famous Austrian bloodless surgeon, Prof. Adolph Lorenz, at the Jefferson Medical College, last Thursday.

The letter boxes that were sent to Bristol are not the most substantial affairs of their kind. A thief with a can opener would experience little difficulty in robbing the mail.

The members of the Good Will Hose Co., No. 3, are making arrangements for a big live bird shooting match on Christmas morning. The match will take place in Slack's field just below the Otter Creek bridge.

At the meeting of the Newportville Horse Company held yesterday afternoon all of the old officers were re-elected with the exception of Harvey S. Rue, a member of the Board of Directors. Dr. Horace Fleckenstein was chosen as Mr. Rue's successor. An excellent dinner was given at the Newportville Hotel by Landlord Dennis A. Dugan. Turkey, duck and all the vegetables, fruits and delicacies of the season were served.

A car will be run to Tullytown today on the new trolley road. The severe weather of the past week or two has seriously interfered with the completion of the road. The car was run yesterday afternoon up and down Mill and Radcliffe streets, and the wires thoroughly tested. New cars have been ordered and in a few weeks it is expected that regular service between Bristol and Morrisville will be inaugurated.

The largest price ever secured for stock of the Newtown National Bank was obtained at a public sale of the real estate and personal property of the late Mrs. VanHorn, held on Friday, when two shares were disposed of at \$306.50 each and two were sold for \$304.25 each. This marks the high tide in the value of this stock which has a par value of \$100 per share. Previous to this the price has averaged about \$285 per share and at that price it was very easy to find ready purchasers.

The young ladies of the Langhorne Country Club will give a complimentary dance on the evening of January 1st. The patronesses are Mrs. Charles Buckman, Mrs. John Blackfan, Mrs. William Brokaw, Mrs. Robert Crane, Mrs. William E. Doran, Mrs. Pierson Fretz, Mrs. Harvey H. Gillam, Mrs.

difficulty in getting located in their proper sites.

A Solebury township property owner reported that the Solebury Township Supervisors, who are not interested in zoning, are attempting to pass ordinances which will classify the township as residential or farming and that any other business will have to appear before them for a hearing before it can locate in the township.

George Duval, president, was in charge of the meeting, and Secretary Betty McCain presented bylaws which she had drawn up. They were discussed and revisions suggested.

Mrs. Floyd O. Messenger, treasurer, reported \$32 in the treasury, and vice-president, John A. Die-

mand, Jr., and others aided in drawing up the constitution and by-laws.

Vice-President Diemand, reporting on the progress of zoning in Buckingham township, gave the following report:

The zoning ordinance of Buckingham township is still in the formative stages. The zoning commission has been making studies, assisted by the Institute of Local and State Government, which is attached to the University of Pennsylvania, and while certain general objectives have been determined, no specific provisions have been established; for that matter, the first draft of the ordinance has not been completed, but will probably be ready in another three or four weeks.

Clubmen Organize Softball League

At a meeting of the Bristol Clubmen's Association Softball League, Friday evening six teams have taken franchises in the league. The teams entered are: Veterans of Foreign Wars, Loyal Order of Moose, No. 1 Fire Co., No. 3 Fire Co., Clinton J. Lewis Lodge, and St. Ann's A. A. It was decided at the meeting to extend the entrance into the league until Friday evening April 18 at which time a meeting of the league will be held at the Loyal Order of Moose. This will allow organizations which have not had the opportunity to discuss the matter to do so and thus allow them to enter the league. During the coming week the six teams which have already entered the league will engage in practice games on Sullivan's field.

The sports committee of the dart league also announces that Clubmen's Dart League of the past season will hold their annual banquet on June 10 at the Mutual Aid Hall.

Says County Lags In Recreation Spots

Continued from Page One
New Hope, Sellersville, Quakertown and Newtown.

Abell pointed to a State Planning Board survey showing that while there are seven municipal parks covering 159 acres there is no county park. Twenty-six swimming places round out the county's public recreation provisions.

Abell emphasized that private facilities for leisure-hour relaxation were not included in his study.

He agreed that there is an important place for private enterprise in recreational planning, but he insisted:

"A public agency will assure recreational opportunities for everyone regardless of race, creed, color or economic ability."

The stimulus and the funds for these projects should come from local residents, he said, and these persons should decide the extent of the contemplated programs.

"The important thing first off," he said, "is to have a local board or commission appointed to institute a study of the community's recreational needs."
